

California WATER JOURNAL

2913 EL CAMINO - SUITE 233 - TUSTIN, CALIFORNIA 92680
TELEPHONE (714) 551-1125 - FAX (714) 551-9539

Let us buy your first issue!

Attached is a recent issue of the California Water Journal. The Water Journal is an easy to read monthly newsletter for those who need to stay on top of California's water issues but don't have a lot of time to do so.

As a subscriber, you'll get the latest news on government legislation and regulation, the agricultural industry, the environmental issues, and the politics that affect our state's water.

You'll also get news and interesting stories about the state's hundreds of urban and agricultural water districts and we'll keep you up-to-date on California's water supply with attractive charts and graphs of the state's hydrology and reservoirs. Each month, you're sure to enjoy our unique *Potpourri* section with its interesting articles about California and the USA.

There's no other single source for this much timely information. To get the same knowledge you'd have to plow through dozens of water, farm, and environmental periodicals; state and federal reports; and most of the state's daily newspapers; and do it every month.

Hardly anyone has time for this.

If you decide to try the California Water Journal, you'll receive 12 more monthly issues, this one was on us, for only \$129 a year. It's even less if you have others in your organization who want to have their own personal copies.

Do it now as you don't want to miss a single issue. To start your subscription, fill out the form below and mail it back to us in the self-addressed envelope.

California Water Journal
